

# ACRYLIC TAPE ATTACHMENT

OVERLAP ACRYLIC

HEM CORD ACRYLIC

FLAT HEM ACRYLIC

## ACRYLIC TRIAD TAPE WELDERS:

Set up specifically for acrylic tape welding, the *Triad* can be built with the *Acrylic Tape Attachment*. #33-060 (110V), #33-060.2 (240V)

The *Acrylic Tape Attachment* allows the fabricator to now weld acrylic, and other non-thermal bonding materials. This tested, proven method will produce overlap, hem cord and flat hem welds with your existing *Triad Wedge Welder*.

The *Acrylic Tape Attachment* Includes:

- \* Thermal Tape Hanger Assembly
- \* Thermal Tape Flat Hem Outer Guide
- \* Thermal Tape Hem Cord Outer Guide
- \* Hem Cord/Flat Hem Wedge w/Heaters
- \* 2 - 2" Rollers w/Hardware
- \* 2 - 1 1/2" Rollers w/Hardware
- \* 1 Roll of Thermal Bonding Tape

- # 34-100 THERMAL BONDING TAPE
- # 34-200 UNISEAM FR TAPE

Our exclusive *Thermal Bonding Tape* insures quality welds for a waterproof seal, flatter seams for retractable systems, no needle holes, and seam strength stronger than the material in the pull tension directions. We also now offer the *Uniseam FR Tape* for seaming fire resistant, acrylic fabrics. This tape is unique in that it is specially formulated to insure a strong bond with fire resistant acrylics.
