

NEW RELEASE: SEQUIN/EMBROIDERY MACHINE

Why not get an Industrial 12 needle embroidery machine for a domestic price?

**SPECIAL PRICE AT
\$12,618.00 + GST
including software
Daily Leased Cost: \$9.32**

If you yearn to take embroidering to the next level, the new NEI YD ASB-1201X Fully Automatic Embroidery Machine is made for you. Not only can this machine accommodate all the standard embroidery that can be done on a domestic machine, it also offers the option to do caps, larger projects and even sequin embroidery. Your embroidery projects will now SPARKLE to life.

Its 12 needles eliminate the process of thread changing each time a different colour is to be used on a design. Stable feeding and carrying is assured ensuring sparking, top quality work each time. With an incredible speed of up to 1000 stitches per minute, time will always be on your side and its superior design means sturdy operation is maintained throughout. Additional features include automatic trimming, automatic upper and lower thread-braking sensor, a monitor operating panel that displays the status of the embroidery design, and automatic lifting system to allow for materials to be easily changed as well as painless service and repairs. All this, plus origin return and the capability to automatically return to the last embroidery position after power interruption combined in a portable, ready to travel design.

**OPTIONAL SEQUIN DEVICE
\$750.00 + GST**

Don't let the technological wizardry of this computer operated machine scare you - from the novice to the know-all, we will guide you through providing all the necessary training and knowledge you'll ever need. Embroidery just can't get any easier than this and with all the enjoyment you get out of this machine, you might even want to start running your own business with it.
